## HAI-O ENTERPRISE BERHAD

(Company No. 22544-D)
(Incorporated in Malaysia)

## STATEMENT IN RELATION TO THE PROPOSED RENEWAL OF SHARE BUY-BACK AUTHORITY ("SHARE BUY-BACK STATEMENT")

## 1. INTRODUCTION

At the $42^{\text {nd }}$ AGM of the Company held on 25 September 2017, your Board has obtained your approval to undertake the purchase by Hai-O of its own shares of up to ten percent $(10 \%)$ of the total number of shares issued of the Company (Proposed Share Buy-Back). The approval for the renewal of the Proposed Share Buy-Back shall lapse at the conclusion of the forthcoming $43^{\text {rd }}$ AGM of Hai-O which will be held on 25 September 2018.

On 26 June 2018, the Company announced that it proposes to seek from the shareholders the approval for the renewal of the Proposed Share Buy-Back. The renewal will be effective upon the passing of the ordinary resolution for the Proposed Share Buy-Back at the Company's forthcoming $43^{\text {rd }}$ AGM until the conclusion of the next AGM of Hai-O or the expiry of the period within which the next AGM is required by law to be held, unless earlier revoked or varied by an ordinary resolution passed by the shareholders of the Company at a general meeting, whichever occurs first.

## 2. SOURCE OF FUNDS

The Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities") and the Companies Act, 2016 ("the Act") stipulates that the proposed purchase by a listed company of its own shares must be made wholly out of retained earnings of the listed company.

Hai-O therefore proposes to allocate an amount not exceeding the audited retained earnings of the Company for the purpose of the Proposed Share Buy-Back. The retained earnings of the Company based on the latest audited financial statements for the year ended 30 April 2018 was RM22,027,377.

The funding for the Proposed Share Buy-Back will be sourced from internally generated funds and/or external borrowings, the proportion of which will depend on the quantum of the purchase consideration as well as the availability of internally generated funds and borrowings and repayment capabilities of the Company at the time of purchase(s). In the event the Proposed Share Buy-Back is to be partly financed by external borrowings, the Company expects that it will be capable of repaying such borrowings and that such funding is not expected to have any material effect on the cash flow of Hai-O Group.

Pursuant to the provisions of Section 127(7) of the Act, the Directors may deal with the shares in the following manner:-
(i) cancel the shares so purchased; and/or
(ii) retain the shares so purchased in treasury, which may be distributed as share dividends to the shareholders and/or resold on Bursa Securities in accordance with the relevant rules of Bursa Securities and/or transferred for the purposes of or under an employees' share scheme and/or transferred as purchase consideration and/or cancelled subsequently and/or sold, transferred or otherwise be used for such purposes as the Minister may by order prescribe; and/or
(iii) retain part of the shares so purchased as treasury shares and cancel the remainder; and/or
(iv) such other manner as may be permitted by the Act.

The decision on whether to retain the shares so purchased as treasury shares or to cancel the shares so purchased or a combination of both, will be made by the Board at the appropriate time.

The Proposed Share Buy-Back, if exercised, is expected to potentially benefit the Company and its shareholders as follows:-

- The Company may be able to stabilise the supply and demand of the ordinary shares of Hai-O ("Hai-O Shares") in the open market of Bursa Securities thereby supporting its fundamental value.
- The earnings per share of the Group will be strengthened if the shares purchased are cancelled which in turn will have a positive impact on the Company's share price.
- If the Hai-O Shares so purchased by the Company are held as treasury shares, the Company may have the opportunity to distribute those shares as share dividends, thus benefiting the shareholders. The treasury shares may also be re-sold in the open market of Bursa Securities at a price higher than the purchase price, thereby realising a potential gain for Hai-O without affecting the Company's issued share capital.
- Hai-O may be able to use its financial resources where there is no immediate use for them.

However, the Proposed Share Buy-Back, if implemented, would reduce the financial resources of the Group. This may result in the Group having to forego better investment opportunities in the future or, at the least, deprive the Company and the Group of any income that may be derived from the deposit of such funds in interest bearing instruments. The Proposed Share Buy-Back may also result in a reduction of financial resources available for distribution in the form of cash dividends to the shareholders of Hai-O.

The actual treatment of the shares purchased pursuant to the Proposed Share Buy-Back would depend on, inter-alia, the prevailing equity market conditions and the financial position of Hai-O.

Your Board will be mindful of the interest of Hai-O and its shareholders in implementing the Proposed Share Buy-Back and its subsequent resale.

## 4. EFFECTS OF THE PROPOSED SHARE BUY-BACK

The effects of the Proposed Share Buy-Back on the Share Capital, Net Assets and Working Capital, Earnings, Dividends, and Directors' and Substantial Shareholders' Shareholdings are set out below.

### 4.1 Share Capital

As at 19 July 2018, the total shares issued of the Company was RM157,175,948 comprising of $300,286,890$ ordinary shares (including 9,421,988 Treasury Shares).

The Company also has an Employees' Share Option Scheme ("ESOS") which was approved by the shareholders of the Company at an Extraordinary General Meeting held on 15 March 2017.

The Company may grant up to $15 \%$ of the total number of shares issued in our Company (excluding treasury shares) at any time over the ESOS period for the employees and directors. As at 19 July 2018, a total of 2,189,000 ESOS Options were granted under the $1^{\text {st }}$ tranche to the eligible employees and directors of Hai-O and its subsidiaries of which a total of $1,633,000$ shares were issued pursuant to the ESOS Options exercised and 13,000 ESOS Options were forfeited. The outstanding ESOS Options as at the same date was 543,000.

In the event Hai-O acquires the full number of Hai-O Shares authorised under the Proposed Share Buy-Back, the total number of shares issued of Hai-O based on the following assumptions will be as follows:-

| Minimum <br> Scenario | $:$ | Assuming all of the existing Treasury Shares are cancelled and none <br> of the ESOS Options are exercised before the implementation of the <br> Proposed Renewal of Share Buy-Back. |
| :--- | :---: | :--- |
| Maximum <br> Scenario | $:$ | Assuming all the existing Treasury Shares are re-sold and all the <br> 543,000 Outstanding ESOS Options under the 1 <br> granted are exercised before tre implementation of the PSOS Proposed <br> Renewal of Share Buy-Back. |

|  | Minimum <br> Scenario <br> No. of Shares | Maximum <br> Scenario <br> No. of Shares |
| :--- | :---: | :---: |
| Issued share capital as at 19 July 2018 | $300,286,890$ | $300,286,890$ |
| Less: Treasury Shares @ 19 July 2018 and <br> assuming fully cancelled | $(9,421,988)$ | - |
| Add: Assuming full exercise of Outstanding <br> ESOS Options \# | - | 543,000 |
| Less: To be purchased pursuant to the Proposed <br> Share Buy Back and assuming fully cancelled | $(20,606,701)$ | $(30,082,989)$ |
| Total number of shares issued after the <br> Proposed Share Buy-Back | $270,258,201$ | $270,746,901$ |

\# Balance ESOS Options exercisable under the $1^{\text {st }}$ Tranche of ESOS granted on 3 July 2017.

In the event that the Hai-O Shares purchased are retained as treasury shares, the issued share capital of Hai-O will not be reduced but the rights attaching to the treasury shares as to voting, dividends and participating in other distributions or otherwise will be suspended. While these Hai-O Shares remain as treasury shares, the Act prohibits the taking into account such shares in calculating the number or percentage of shares in Hai-O for any purpose whatsoever including substantial shareholders' shareholdings, takeovers, notices, the requisitioning and quorum of general meetings and the result of votes on resolutions at general meetings.

### 4.2 Net Assets and Working Capital

The effects of the Proposed Share Buy-Back is likely to reduce or increase the Net Assets per share of the Hai-O Group and will reduce the working capital of the Hai-O Group, the quantum of which depends on the number of Hai-O Shares purchased, the purchase price and the effective funding costs of the Hai-O Group. The Proposed Share Buy-Back will reduce the Net Assets per share of the Hai-O Group if the purchase price exceeds the Net Assets per share of the Group at the time of the purchase. Conversely, the Net Assets per share of Hai-O Group will increase if the purchase price is less than the Net Assets per share of the Hai-O Group at the time of the purchase.

Should the Company choose to resell the treasury shares on Bursa Securities, depending on the price at which the said shares are re-sold, the Proposed Share Buy-Back may have a positive effect on the Net Assets of the Group if a gain on disposal is achieved.

The audited Net Assets per share of the Hai-O Group as at 30 April 2018 is RM1.06.

### 4.3 Earnings

Assuming the purchased Hai-O Shares under the Proposed Share Buy-Back are cancelled, the Proposed Share Buy-Back may increase the earnings per share ("EPS") of Hai-O Group. In addition, on the assumption that the purchased Shares are treated as treasury shares and subsequently resold, the earnings of Hai-O Group may be affected depending on the actual selling price and number of treasury shares resold. In the event the purchased Shares are held as treasury shares, the effective reduction in the issued share capital of the Company pursuant to the Proposed Share Buy-Back would generally, all else being equal, increase the consolidated EPS of the Group.

### 4.4 Dividends

For the financial year ended 30 April 2018, your Board has declared a first interim single tier dividend of 6 sen and a second interim single tier dividend of 3 sen per ordinary share, amounting to RM17,484,894 and RM8,727,945 which were paid on 8 March 2018 and 13 June 2018 respectively.

Subject to the approval of the shareholders at the forthcoming $43^{\text {rd }}$ AGM, your Board has recommended a final single tier dividend of 11 sen per ordinary share in respect of the financial year ended 30 April 2018.

Assuming the Proposed Share Buy-Back is implemented in full and the dividend quantum is maintained at historical levels, the Proposed Share Buy-Back will have the effect of increasing the dividend rate of the Company as a result of the reduction in the number of shares issued as described under Section 4.1 above if the Hai-O Shares purchased are cancelled.

If the Hai-O Shares purchased are treated as treasury shares and assuming the dividend quantum of the Company is maintained at the historical levels, the Proposed Share Buy-Back will have the effect of increasing the dividend rate of the Company as a result of the suspension of rights attaching to the treasury shares as to dividend entitlement. Nonetheless, the treasury shares may be distributed as share dividends to shareholders of the Company if the Company so decides.
Directors' and Substantial Shareholders' Shareholdings
The proforma effects of the Proposed Share Buy-Back on the shareholdings of the Directors of Hai-O based on the Register of Directors' Shareholdings as at 19 July 2018 and assuming that Hai-O purchases the maximum ten percent ( $10 \%$ ) of its total number of shares issued are set out as follows:
Minimum Scenario: Assuming all of the existing Treasury Shares are cancelled and none of the ESOS Options are exercised before the implementation of the Proposed Renewal of Share Buy-Back.

## 6. PUBLIC SHAREHOLDING SPREAD

Based on our Register of Substantial Shareholders and the Record of Depositors as at 19 July 2018, the public shareholding spread of Hai-O is $68.58 \%$ of the issued share capital.

Assuming the Proposed Share Buy-Back is implemented in full, the public shareholding spread would be expected to be reduced to:-
(i) $66.18 \%$ in the event all of the existing Treasury Shares are cancelled and none of the ESOS Options are exercised before the implementation of the Proposed Renewal of Share Buy-Back; and
(ii) $66.24 \%$ in the event all the existing Treasury Shares are re-sold and all the 543,000 Outstanding ESOS Options under the $1^{\text {st }}$ Tranche of ESOS granted are exercised before the implementation of the Proposed Renewal of Share Buy-Back.
(assuming the Hai-O Shares are purchased from public shareholders other than our existing Directors and substantial shareholders pursuant to the Proposed Share Buy-Back and the number of Hai-O Shares held by the Directors and the substantial shareholders of Hai-O and persons connected to them remain unchanged).

## 8. IMPLICATION RELATING TO THE MALAYSIAN CODE ON TAKE-OVERS AND MERGERS, 2016 ("CODE")

The Proposed Share Buy-Back is not expected to trigger any obligation to undertake a mandatory general offer pursuant to the Code as a result of the Proposed Share Buy-Back.

It is the intention of Hai-O to implement the Proposed Share Buy-Back in a manner that will not result in any of the shareholders of Hai-O having to undertake a mandatory take-over offer pursuant to the Code.
9. DIRECTORS' AND MAJOR SHAREHOLDERS' INTERESTS

Save for the proportionate increase in the percentage of shareholdings and/or voting rights in their capacity as the shareholders of the Company as a consequence of the share movement pursuant to the Proposed Share Buy-Back, none of the directors and/or major shareholders of the Company and any person connected with the directors and/or major shareholders of the Company, have any interest, direct or indirect, in the Proposed Share Buy-Back, and in the resale of the treasury shares, if any.

## 10. DIRECTORS' RECOMMENDATION

Your Board, having considered all aspects of the Proposed Share Buy-Back, is of the opinion that the Proposed Share Buy-Back is in the best interest of the Company and its shareholders. Accordingly, your Board recommends that you vote in favour of the ordinary resolution in respect of the Proposed Share Buy-Back to be tabled at the forthcoming $43{ }^{\text {rd }}$ AGM.
